**SAMUEL'S
Mantle
ONLINE**

Murray Dueck,
author of
*"If This Were A Dream,
What Would It Mean?"*

is now offering
his life-changing course
Samuel's Mantle
online!
www.samuelsmantle.com

You've read the book, Now here comes the movie!

Dear searcher,

There is a longing in this generation that God is stirring up to hear His voice. People from all over the world have spoken to us after reading **"If This Were a Dream, What Would It Mean"**, saying **"I wish I could be in this class, hear this teaching, be there."**

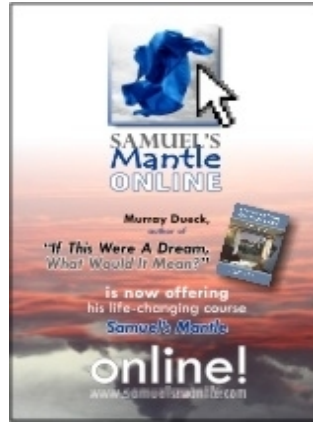

Since that isn't possible, and because of the hunger growing out there, we thought we could bring the class to you. Thus, Samuel's Mantle Online was born.

I've met a lot of prophetic people in my life. Some very well known and many not. I have never met anyone who is so gifted in both the prophetic and in training people to hear God's voice, as Murray Dueck. Murray has an ability to see a person's potential and call them into it. He believes in people. He also has an uncanny gift to hear and discern the voice of Jesus.

I grew up knowing things about people.. I saw things, felt things, that couldn't be seen with my eyes, felt with my hands. It wasn't until I was much older that I started to meet others like me, who walked with Jesus and understood his gifts and his voice, who weren't afraid of the spiritual realm. I was always the weird one. Then I met Murray. And Diane. And John. And...

The list keeps on going. We are growing a company of prophets like in the old testament.

**The twist is, we've gone techno!
We've put our first year course
online!**

What is this Webclass you speak of?

This year, we have been filming one of our 1st year classes. That video is available to students who have registered for Samuel's Mantle Online as a once a week download. There is also notes to downloaded in PDF form for each class and a live, interactive forum.

Do I need to have special software to be in this class?

No special software is needed, but you do need a computer capable of handling the large video files (2ghz, 512 MB of RAM). The videos play in Quicktime, which is available as a free download. The notes in PDF files are easily downloaded using Adobe Reader, also a free software download.

Sound like what you've been waiting for?

Samuel's Mantle Online is a 10 month course, broken into 2 semesters. Each semester is 18 classes. The local class that was filmed started in September and went to June. Of course, in the webclass, you can start the course at any time and go at your own pace. Someone asked me a question this year that has been ringing in my ears ever since:

"If not now, when?"

We spend so much of our lives putting off 'til tomorrow the important things, because the urgent things demand our attention. This is one of those things that will bring far-reaching changes in your life. The question is, are you going to grab hold of it, or put it off 'til later? If not now, when?
